

# Rollit - platform-mounted single-sided cassette

The flexible display system for rolled banners. Rollit platform-mounted single-sided cassette with a telescopic middle section that be extended from 95 to 225 cm and up to 300 cm with an adapter. The cassette system is flexible and consists of interchangeable cassettes that can be combined or interchanged with any other cassettes in the range. Add a doubling fixture and a cassette to make a double-sided Rollit.

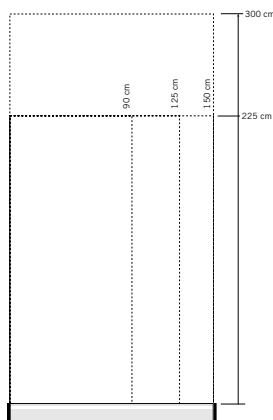

Standard widths are 90, 125, and 150 cm. Comes in a protective woven carrying bag.
