

Rollit - Cassette for wall and ceiling mounting

The rolled banner display system that can be mounted on a wall or ceiling. The system is available with a hand-operated mechanism or an electric motor that can be operated with a wall-switch or a remote control unit. With the electrically powered model, up to six units can be operated from the same wall-switch or remote control unit. This Rollit system is an effective way of displaying your message in windows and getting a sun-blind at the same time.

Use wall surfaces or hang the cassette from the ceiling. With the standard fixture, the cassette can also be mounted on exhibition stand walls up to 20 mm thick. The cassette system is available in standard widths of 90, 125 and 150 cm, or cut to any width up to 200 cm. Aluminium or white finish.

Part no.

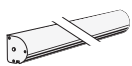

| | |
